NOBODY IS LEFT ALONE

WE PLACE HUMANS AT THE CENTER
THROUGH AN INNOVATIVE WAY OF
COMMUNICATING IN CARE

mYSOLI

NOBODY IS LEFT
ALONE

WE LISTENED TO THE STORIES AND THE NEEDS OF PEOPLE REQUIRING ASSISTANCE.
WE INTERVIEWED HEALTHCARE PROFESSIONALS, WHO EVERYDAY TAKE CARE OF THEM.
WE HAD CONVERSATIONS WITH FAMILY MEMBERS WHO WAIT FOR DAILY NEWS
FROM THEIR LOVED ONES AND DESERVE DIRECT AND ONGOING COMMUNICATION.
WE IMAGINED A WORLD WHERE, ALTHOUGH APART, WE ARE ALWAYS IN CONTACT
WITH THE PEOPLE WE LOVE.

THIS WORLD IS MYSOLI

MYSOLI APP,
AN INNOVATIVE TOOL
FOR CARE AND SENIORS'
HOMES

THE PROJECT

CONTEXT ANALYSIS

Due to the pandemic outbreak, we have realized the great importance of networks, connections, and information sharing. In this new scenario, technologies can be the driver of change, especially for the most vulnerable groups of our population, like the elderly people, persons with disabilities, patients, and guests of care structures and health facilities.

SENIORS ARE MORE AND MORE FAMILIAR
AND INCLINED TO USE NEW TECHNOLOGIES.

TECHNOLOGIES CURRENTLY USED IN CARE FACILITIES HAVE BEEN
DEVELOPPED TO SUPPORT THE HEALTH SIDE OF THE CARE AND ARE
NOT FOCUSING ENOUGH ON THE PSYCHOLOGICAL ASPECT OF THE
PATIENT.

THE PROJECT

MySOLI is a project of «DIGITAL HEALTHCARE» that implements digital technologies to face loneliness and isolation, and, at the same time, it is a useful tool to support caregivers and health workers.

MySOLI is the result of a process of research and continuous conversation with experts, healthcare operators, doctors, social player representatives, caregivers, and family members.

The project has been financed by Lazio Region within the smart specialization e-health strategy. The Istituto Nazionale Ricovero e Cura Anziani (INRCA), National Institute for elderly care, is the official scientific partner of the project.

Its contribution has been fundamental to validating the entire methodology behind the project. Other feedback and guidelines taken into consideration are from other important actors of the care industry, for example, Anaste (National Association Elderly Facilities) and the family forum.
